2 Year Warranty

accumed Palm Type Aneroid Sphygmomanometer provides medical professionals with all the control in the palm of a single hand.

This lightweight Sphygmomanometer features performance, efficiency, portability and many years of unequalled service.

Without the use of pin stop, the Sphygmomanometer comes with high-contrast dial face thus offers easy to read display.

The lightweight housing and bezel are constructed of chrome-plated high-impact thermoplastic.

Latex free inflation bulb, bladder and tubing.
